

Print these bookmarks on a color inkjet printer and trim at the cropmarks.
For added interest, students can glue them to colored construction paper before trimming.

- Look for April's room. On the opposite page there are some objects from her room. See if you can find some of them in April's room.
- Look for the small illustrations under the type:
See how many things are the same about the objects on each page.
See how many things are different.
Example: The fish are all fish, they all have fins, they all have eyes, they all swim.....They are different in that they are all different colors, different shapes, different sizes...
- Find the page with cups and glasses. See if you can find them in the illustration on the opposite page.
- Find the chairs. See if you can find them on the opposite page.
